

M.V. PLALUNG 1

Since 1992 - 2018

Since 2018 - 2020

Collaboration with Department of Fisheries, SEAFDEC, Nestle and Thai Union to renovation the fishing boat to be the demonstration of the fishing boat based on the convention of ILO (Work in Fishing Convention, 2007)

Work in Fishing Convention (2007) C 188, was adopted at the 96th International Labour Conference (ILC) of the International Labour Organization ILO in 2007. The objectives of the Convention is to ensure that fishers have decent conditions of work on board fishing vessels with regard to minimum requirements for work on board; conditions of service; accommodation and food; occupational safety and health protection; medical care and social security. It applies to all fishers and fishing vessels engaged in commercial fishing operations. It supersedes the old Conventions relating to fishermen.

M.V. PLALUNG Renovation Plan

Scope of Renovation

- To Improve efficiency of fishing gear and machinery by implementing some techniques, witch can lead to the reduction of manpower and the improvement of working conditions.
- To improve vessel construction based on C-188 standard.
- To apply the concept of 'Low Impact and Fuel Efficiency" in order to reduce negative impacts on human and environment.
