3. ORGANIZATION AND BUDGET SUPPORTS

4. ACTIVITIES OF MEETING

- On 21 December 2022, the meeting was held at Ou Krasar village, Sangkhat Ou Krasar, Kep city, Kep province, which 91 participants were attended. The most of them were the members of community fisheries and fishermen, including 59 women (64.84%) (see appendix 1 and 4).
- On 22 December 2022, the meeting was conducted at Kampong Tralach village, Sangkhat Dam Nak Chorng Oeur, Dak Nak Chorng Oeur district, Kep province. In this meeting, it was observed that 82 participants were attended, which the most of them were members of the community fisheries including 47 women (57.32%) (see appendix 2 and 5).
- On 23 December 2022, the meeting was conducted at Ang Kol village, Sangkhat Dam Nak Chorng Oeur, Dak Nak Chorng Oeur district, Kep province. There were 97 participants attending this meeting, which the most of them were members of the community fisheries including 52 women (53.60%) (see appendix 3 and 6).
- Mr. Chhork Sineak, the Head of Fisheries Division of Kep city/FiAC-Kep informed the meeting about the site of MFMA and refugia as well as the proclamation on the establishment of MFMA and BSC refugia in Kep province endorsed by the government, especially the closed season of BSC starting from 1 May to 31 July at Koh Po island every year. He added that the objectives of establishment of MFMA and refugia site at Koh Po and Koh Tonsay are to increase the stock of marine fisheries resources, especially Blue Swimming Crab. When those resources are abundant, catching rate get a lot as well. Therefore, participation in protecting those resources will be good options, and especially using legal fishing gears as stated in the fisheries law.
- During these meeting, FiAC Officers distributed posters and leaflets on the protection of marine fisheries resources and endangered species to fishers and community fisheries too.
- According to the meeting results, 90% of participants supported an existing MFMA and BSC refugia site because they understood that the establishment of MFMA is a positive option for protecting and restoring fisheries resources. In fact, endangered animal species such as dolphins, dugongs, and marine turtles are found to recover at MFMA and refugia site meanwhile other resources species increase too. Although, they requested FiAC to control

and monitor outsiders from other provinces causing problems with using unsustainable fishing gears, these affected fisheries resources. In this case, FiAC will continue to work with CFi to patrol and monitor, and requested the members of CFi to report quickly if there is fishing offense happening at the refugia site.

5. CONCLUSION

It was concluded that 90% of participants understood and recognized clearly the site and importance of MFMA and refugia, especially the size and its boundary, however, they requested FiAC to control and monitor outsiders from other provinces causing problems with using unsustainable fishing gears, these affected fisheries resources. In this case, FiAC will continue to work with CFi to patrol and monitor, and requested the members of CFi to report quickly if there is fishing offense happening at the refugia site.
