Establishment and Operation of a Regional System of Fisheries Refugia in the South China Sea and Gulf of Thailand, Report of the Third Meeting of Fisheries Refugia Management Plan Drafting for Penaeid Shrimp in West Kalimantan. Southeast Asian Fisheries Development Center, Training Department, Samut Prakan, Thailand; FR/REP/ID35, 4 p.

1. Venue

Research Institute for Fish Resource Enhancement-RIFRE, Purwakarta, West Java.

2. The Objective of the Meeting

The meeting was aimed to discuss the draft of management plan of Banana shrimps (*P. merguensis* and *P. Indicus*) with a refugia fisheries approach in West Kalimantan.

3. Meeting Note

Based on the results of the discussion, several important points could be noted:

- The draft of the shrimp fisheries refugia management plan (SFRMP) that has been completed will be submitted and discussed with the Head of the centre for fisheries research as the head of the National Fisheries Refugia Committee.
- There have been changes to the draft of management plan document that has been prepared previously, such as the outline of management plan document, the need to add information related to the fishing season and area, and also the identification of destructive fishing gear.
- Each chapter in the management plan document will be composed by a designated team member.
- All chapters in the management plan document will be collected and discussed at the meeting the following week (19 January 2021)
